

Covid prevention measures Swiss Open Fiesch, 4.-9.8.2020

Version 2.8.2020

It is up to pilots to check travel restrictions and return to his place of residence restrictions before the travel.

General

1. *Participate only without symptoms (see annex)*
2. *Distance or mask (everyone carries own masks with)*
3. *Wash and/or disinfect hands (everyone carries an own disinfectant with)*
4. *Fix groups for social events for the whole period (no mask obligation within this group)*

1. participate only without symptoms

Persons with symptoms of illness are NOT allowed to participate. They stay at home or go into isolation and discuss the further procedure with the doctor.

2. keep distance or wear mask

At the meeting point, during briefing and debriefing, after the end of the activity, on the return journey - in all these and similar situations, a distance of 1,5 metres must be maintained and the traditional shake hands and high-fives must be strictly avoided.

Wherever the distance cannot be maintained, strict masking is required.

3. wash or disinfect hands thoroughly

Washing hands or disinfecting hands plays a decisive role. Pilots are required to wash or disinfect their hands before and after transport, briefing and other activities. Everyone carries their own disinfectant with them.

4. pilot evening and other social events (bar, coffee, restaurant, take off)

Pilots decide on a fixed group. Usually this is "their own nation". Small nations form groups of about 20, max. 25 people.

Within these groups the mask obligation is suspended.

Office

- Strictly one-Way, no entry from the back
- In HQ maximum 3 pilots (non staff individuals) are allowed and have to wear masks.
- Plexiglas panes for the protection of the crew

Registration

- All waypoints and airspace has to be downloaded in advance. Thomas will upload waypoints to regular instruments (strictly no phones), as an exception, if pilots don't have the means to load them onto their own instruments for some reason.
- Numbers are prepared in advance and put into envelopes marked with the pilot number.
- T-Shirts, Cable-Car passes etc will be handed out from one person with mask.
- The Deposit for the Train Ticket-Pass has to be given in a covert in the form of a 20 note (CHF or €). The pilot can then take his own note out of the envelope himself after the competition.
- The Map can be taken from the pilot itself.

Trackers

- Trackers will be assigned and labelled in advance before going to Disentis.

- At launch, knowing that the trackers are clean, they are handed out exactly as normal (person with mask).
- Upon return to base, the tracker is put by the pilot into a "quarantine box".
- The person responsible for putting the trackers on charge will wipe the trackers down with alcohol before putting them onto the charging table. Once on the charging table, the trackers are considered clean, and can be charged, sorted and loaded into the suitcase for distribution by organisation staff.
- The following day, the clean trackers are distributed as normal.

Coffee and Briefing at Fiescheralp

- Lunch bags are handed out by staff with masks and gloves.
- The pilots gather in "their" groups.
- At the briefing pilots stay in their own group or wear a mask.

Transport

- During all kind of transports (train, car, transport to take off) masking is mandatory. Every pilot brings his own mask.

At Take off

- The pilots stay in their own groups, keep the distance or wear a mask. The same applies to the briefing at take off.

General Briefing

- Only pilots who do not know the area or have questions will attend the physical general briefing. During the hole time in the tent at HQ exist a general mask obligation.

Meteo-Briefing, Task setting

- The meteo briefing takes place at announced times via WhatsApp.
- The provisional task will be published at WhatsApp. After the briefing a photo with the final taskboard will be published at WhatsApp.

Pilot evening

- The pilot evening will take place at three evenings with two groups each. Pilots register at one of these groups BEFORE the registration at HQ:
<https://doodle.com/poll/???asdfghjklö?>

Attention:

- "This" group is decisive for the whole period of the event.

Tracking

- Thanks to the lists of participants and helpers and the registrations in the individual groups, the creation of a list of participants is guaranteed.

For the organizing committee,
Martin Scheel

Annex Symptoms:
